To Parents in Nursery, Reception and Year one

Dear Parents,

**Possible return to school for Nursery Reception and Year One children**

I hope that this letter finds you all well. You will no doubt be aware that the Government have indicated that schools may re-open on the 1<sup>st</sup> June for selected year groups. This will be subject to the five key tests set by the Government justifying these changes at the time. As you are already aware, TPPS is currently open to key worker groups and we are now in the process of working through the guidance to establish what a phased re-opening may look like for our school. In order to help with this planning, I would like to seek your view as a current parent around whether you intend to send your child into school.

I do not yet know whether this will be a full time return or a part time return, but I do know that each class/group will be no more than 15 children, which will therefore mean that there may be some need to move a group to a different classroom to provide more distancing.

The Government would like us to plan for this phased re-opening from the 1<sup>st</sup> June. I would therefore ask you to complete the form below in order for us to gauge the numbers we need to plan for in school and the number of children continuing with the remote learning provision. Once I have further information about what a return to school for Nursery, Reception and Year one will look like I will share this with you.

Thank you for your time on this.

With my best wishes,

Louise Leah

I intend for my child to return to school if the school re-opens for my child's year group on the 1<sup>st</sup> June.

- Yes
- No
