

## Accessing Teams from home for pupils.

Teams is a collaborative software that can be accessed from a variety of devices. To access Teams via the internet, please open up a browser (Chrome, Edge, Safari) on your computer. To access it from a tablet or phone, please look up Microsoft Teams in either the App store for Apple devices or Google play for Android devices.

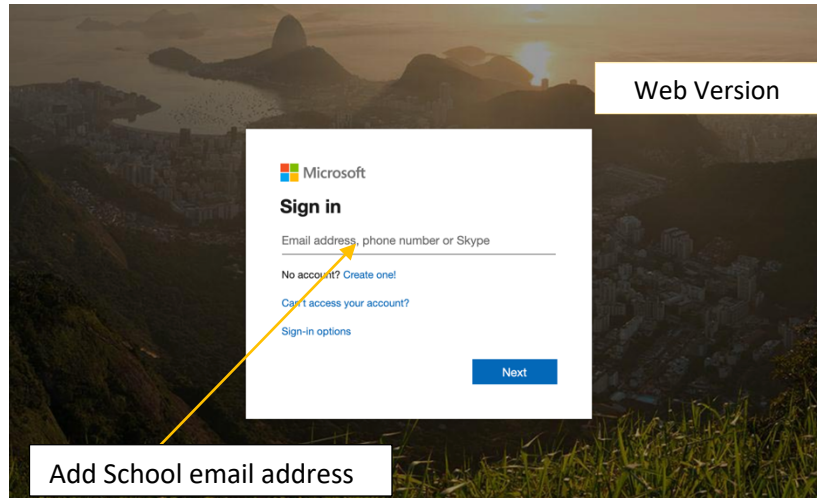

Go to the following address: <https://teams.microsoft.com/>

Microsoft Teams

### Mobile Version

To access Teams from a tablet or phone, please look up Microsoft Teams in either the App store for Apple devices or Google play for Android devices.

When signing in, please use your Taunton School email address e.g. John Smith would have an email address of:  
john.smith@tsmail.co.uk

Please use your school password (which you use to access the computers within the school IT suites).

You will be taken to a Taunton School login page where you may, once again, be asked for your school email address and password. Please allow any further on-screen messages to be enabled. In the event of your browser not working on a mobile device, please download the dedicated app.
